PROGRESS ON THE FUTURE OF THE SECTOR

Earlier this year, Yorkshire Forward asked the region's Creative and Digital Industries how they thought the sector should be developed, to create a business environment that will stimulate continued economic growth.

Your input into that process was vital to our planning on how we will support the sector over the next seven years. We've considered your contributions and have produced a report with recommendations on how our long-term strategic support will look.

We would like to share these recommendations with you and invite you to a workshop at which the report will be presented on the day by David Kay from Sero Consulting who will highlight the key recommendations made by businesses in the sector.

Delegates will also have the chance to attend two short seminars on:

- intellectual property
- emerging technologies

Alongside the seminars, a networking area will bring delegates together and will feature stands from the region's sector support networks, business accommodation providers and business support organisations.

The event will take place on Thursday 11th October from 3.30pm to 7pm at the Cedar Court Hotel in Wakefield, just off junction 39 of the M1.
